

# Western NY Garden Railway at Alden Historical Society

Attention model railway enthusiasts: the Western New York Garden Railway Society will be the featured presenters at the June 14 Alden Historical Society program. Included in the program will be an indoor working train set-up, a power point presentation, and footage of several members' layouts. You may have seen some of their layouts as the Railway Society routinely participates at the Erie County Fair, Buffalo & Erie County Botanical Gardens, Festival of Lights, among other venues. More information about the group may be

obtained by visiting their website [wnygrs.com](http://wnygrs.com).

Join the AHS and share in the appreciation for model railroading at the Community Center on Thursday, June 14 at 7 pm. Refreshments will be served.

This will be the final Historical Society program before they break for the summer months of July and August. Although the Historical Society will not be hosting programs during the months of July and August, they will maintain open hours at the Historical Society museum at 13213 Broadway from 1 - 3 pm on the first and third Sundays of July and August, and they will have a display at the Erie County Fair.
