

Botanical Gardens Holiday display

photos by Rich Dulski

The Western New York Garden Railway Society's (WNYGRS) Holiday Layout was November, 28, 2013 through January 5, 2014 at the Buffalo & Erie County Botanical Gardens, in Buffalo, NY.

Layout size was 65' x 8'. Half the display featured a 'Thomas the Tank Engine' theme, and the other half was Buffalo, NY in the 1950s.

The model of the entire Botanical Gardens at one end was scratch built by Tom Schobert, one of the club members. The Thomas photo also has Toby the Trolley, which was scratch built by another of the members, Gary Ludwig.
